Subject: Kaiser Cement Corporation and Kaiser Gypsum Company - Excess and Primary Letters to Lloyds

Ron,

Thank you for talking with me yesterday about our attempt on behalf of Kaiser Cement Corporation ("KCC") and Kaiser Gypsum Company, Inc. ("KGC") to place Certain Underwriters at Lloyds, London on notice of EPA's Section 104(e) information requests relating to the potential liability of KCC and KGC for contamination in the Lower Duwamish Water, which has been listed as a federal Superfund Site. As I mentioned, in addition to the letter you received from us on behalf of KCC, we have sent out three additional letters on behalf of KCC and KGC. These additional letters are attached. As you will note, the separate letters reference three sites, two different companies (albeit affiliated companies), and both primary and excess/umbrella liability policies.

After you have had an opportunity to confer with your colleagues in London, please send me an acknowledgement of receipt of our notice letters. If for some reason, we have sent these letters to the wrong address or addressees, please provide us with the corrected information. As I mentioned, yesterday, a majority of the policies we have identified as being sold by Certain Underwriters at Lloyd's, London did show J.H. Minet as the designated London broker.

If there is any additional information you need from me, please let me know.

Thanks, Steve
